Menzies Aviation wins Jett8 Airlines contract at Manchester International

Menzies Aviation is delighted to announce a further contract award at Manchester International Airport.

Jett8 Airlines Cargo, Singapore's first all cargo airline, operates scheduled and charter services across many routes. With its introduction of a fleet of pure freighter aircraft, valuable cargo, perishable foodstuff, live animals and time-sensitive commodities are transported on their worldwide network.

Jett8, a privately owned airline with a strategic alliance partnership with Nippon Cargo Airlines and NYK Line, will operate 2 flights a week into Manchester originating from Singapore and routing via Luxemburg and Dubai. The operation starts in Manchester on 30th June 2007.

The contract includes:

- o Ramp handling for the freighter
- o Cargo handling at Manchester, Heathrow and regional airports throughout UK & Ireland
- o Landside trucking throughout UK & Ireland

Jett8 said “We take great pride in choosing Manchester Airport as our first destination with the hope of growing the freight volume to justify a daily service in the medium term. Menzies Aviation, as our partner in ground handling can assist in that growth by providing the same efficient service it is renowned for. Together, we will grow from strength to strength in the provision of smooth and seamless airfreight service between Asia and Europe.”

John Redmond, Menzies Aviation's Director UK & Ireland, said:

“We are delighted to have been chosen by Jett8 in the UK & Ireland as their Cargo Handler, and with our significant experience of freighter operations in to Manchester we are confident that working together with Jett8 we will ensure the operation is a success for all concerned.”
